# STONY PLAIN SUN.

VOLUME TEN.

STONY PLAIN.

ALBERTA, THURSDAY, SEPT. 5, 1929.

Whole Number 474

## Stony Plain and District.

Mr R B Brooks has purchased one of those new Marquette sedans from Agent E Pidgeon.

A fairly large number of members of the Rifle Club turned out to the holiday shoot at Comet Butts Monday, and some good scores were made, in spite of the gusty wind. Among the good shots present were Messrs O Hoffman and Lawrence Zilliox. Some of the younger members were present, and these made a creditable showing.

## United Church Notes.

A very special musical service will be held at Bright Bank of Sunday, Sept. 15 at 3 p.m., when singers will assist from Spruce Grove, Holborn,

## Duffield Doings.

A Baby Clinic was held here last week under the auspices of the local Women's Institute, when 23 children under 6 years of age were examined. Miss Emerson was the nurse in charge. W. I ladies served lunch to the mothers.

Stony and Mewassin. An organ has been secured for that point.

Rev G A Sauder is preaching a series of sermons based on the parables of Jesus which is apparently proving very interesting, as the congregations are keeping up splendidly.

The choir, under the leadership of Mr Yeates, has resumed activity after a few weeks' absence.

## Saturday's Auto Accident.

On Saturday noon another get-together motor party embracing the cars of Mr John Ducholke and Mr T Stroh occurred on the South road at St Matthew school corner. Mr Ducholke was proceeding to his home at his usual leisurely pace, and on reaching the School corner met the car of Mr Stroh just emerging from the clump of brush which obstructs a good view at this intersection. To avoid an accident, Mr Ducholke swung his car over to the left, crossing the road, and bumping a phone pole. No serious damage was done either car.

## Cookies Free

The Stony Plain Bakery is introducing a new method of advertising their goods. Beginning Saturday last, every customer purchasing 25 cents' worth of bread is entitled to draw a ticket from a box. Those who draw a red ticket are entitled to a package of cookies. Mr Baer has been busy handing out the cookies to the successful red-ticket pickers.

## From Vancouver Island

Mikawber McClosky was a visitor at The Sun office last Friday, and stated that he was looking for work. Mik says he hails from Restigouche, on Vancouver Island, which place he left Aug. 19th, on his travels. He started out to walk the distance on the ties, and claims he has done this since leaving home, with the exception of a few "lifts" on the mountain sections of the railway. The railwaymen have been good to him in the places which he has visited.

After a few hours' survey of Stony, he said he was headed for the harvest fields of the prairies, and was given a lift to the City by a traveling motorist.

## Loyal Order of Moose.

Thursday last Stony Plain Lodge No. 1556, Loyal Order of Moose, held its first meeting since its inception. Dictator Carl Propp in the chair, with all the officers present. It is the intention of members of the Lodge to erect a Moose hall in town, as soon as the membership permits.

Supervisor A J Ingram is convinced that the members of the new Lodge will work to the best interest of their Lodge and community, helping to bring about the universal brotherhood of man and Fatherhood of God, at the same time protecting each others' families from distress when trouble comes upon them. Mr Ingram urges all to join now and help to build your town and give the young folks a good social time that will be a great help to them thru life.

For Rent, for the winter months, Place, to responsible person. Jack Baxie.

## Developing Sentiment For World Peace

Despatches appearing in the daily papers telling of the rupture of relations between Russia and China, with raids along the border between the two countries and the imminence of open warfare; despatches reporting the strained relations that have developed between the Jews and Arabs in Palestine, ending in riots and necessitating vigorous military action by the British Government as the mandatory power in Palestine; despatches outlining the difficulties confronting the reparations conference at the Hague, in reaching some amicable and satisfactory solution of the financial problems arising out of the Great War; despatches recording the communitarian activities of Soviet agents in all parts of the world—all reveal how far distant is that day when the nations of the world can rest assured of universal, permanent, world-wide peace.

In his recent mastery address before the Canadian Club, at Regina, Hon. Winston Churchill declared, with emphasis and without any qualification, that the greatest need of Great Britain and the Empire today was a long period of world peace. Great Britain, he said, was making wonderful progress. It was more prosperous than ever before, more people were employed, the standard of living was higher, but population was larger, taxation enormously heavy, and a long struggle ahead to wipe out the huge burden of war debt. But, he reiterated, all that was necessary was a long period of peace to enable the Old Land and the whole Empire to re-establish themselves, develop their great resources, and thus enter upon the greatest era in their history.

Mr. Churchill, therefore, urged the Canadian people to do everything to develop a strong sentiment for peace. Such a sentiment existed and was growing stronger every day. Statesmen everywhere were striving for it. But his message was to each and every individual to do their part, to think peace, talk peace, act peacefully. Only so would the nations themselves become peaceful in thought and outlook; only so could statesmen effect those compromises and develop those policies essential to world peace.

Finally, Mr. Churchill confidently predicted that, if such a state of mind was cultivated by the masses of the people, the longed for peace would be maintained. There would, no doubt, be uprisings and troublings, times among the less civilized peoples, such as were in evidence in Russia and China, but people should not be misled by these into thinking that general world peace was impossible of realization.

Canada, with its cosmopolitan population, containing, as it does representatives of almost every nation under the sun, has a particular duty to perform. It is clearly the duty of the people of this Dominion, both in the interests of Canada itself, and of the world at large, to cultivate the kindest of feelings toward each other, to refrain from looking down upon their fellow-citizens of other racial extraction as inferior to themselves, to be considerate of their customs and habits.

It is likewise in the interests of Canada, and of world peace, to study international problems, and to realize that the situation of those tendencies to erect walls of division between this nation and that, whether those walls be military, naval, social, or in relation to matters of trade and commerce. It should be the aim of the Canadian people to be friendly with all other people, and, instead of emulating any of them in policies of isolation, exert their influence to the end that cordial goodwill be developed instead of suspicions and antagonisms.

### Six Tip Scale At Pound

German Fruit Farmers Have New Variety of Strawberry

A new variety of strawberry, called "Upper Schlesian," so enormous that six luscious berries alone tip the scale at a pound, is the latest offering of the industrious fruit farmers of the Vierslaanden, near Hamburg. The new berry is perfectly formed, of appetizing rosy hue, with a delicious flavor.

The Vierslaanden, a fertile low-lying district in the vicinity of the river Elbe, is justly famous, for its people have preserved many of their fine fruits and vegetables.

If a boy doesn't earn more than he gets he will never amount to much as a man.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes easily those its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

### Canada-Bolivia Air

#### Mail Is Announced

Arrangements Completed At Ottawa And Rate Fixed

Arrangements for air mail service to Bolivia and Chile have been completed, according to an announcement of the post office department, at Ottawa. Mail will be carried over Canadian and United States services to Cristobal, Canal Zone. Letters and parcels for Bolivia will then go to Mollendo, Peru, and thence to its destination by train. Mail to Chile will be conveyed from Cristobal to Santiago by air. The rate from Canada to Bolivia is 65 cents for each ounce or fraction thereof and to Chile 70 cents.

An owl's flight is noiseless.

### New Nickel-Copper Find

Promising Discovery On Manitoba-Ontario Boundary

It is reported that a promising nickel-copper discovery has been made in the vicinity of Ingolf on the Ontario-Manitoba border. Assays show 30 per cent. copper, 1 per cent. nickel and about three dollars worth of gold per ton. Further assay work is proceeding at the present time. It is stated that Ingolf, which is about 800 feet wide and one and a half miles long, with an outcrop about six miles east. There is a large body of the same mineral on the Manitoba side but it is closed for staking yet.

## WEAK, WATERY BLOOD

Is the Cause Of Much Distress and General Weakness

Anemia— which really means weak, watery blood—is responsible for the pale faces, thin cheeks, dull eyes and drooping figures one sees all about. It is the chief cause of headaches, weak backs, aching limbs and uncertain health. Every weak, anemic person should win the right to be well by refreshing their weary bodies with the new, rich, red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all those troubles that have their origin in watery blood. Among those who have found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Elizabeth Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house, and my household work almost impossible. I was taking doctor's medicine, but with no apparent benefit. When I began taking Dr. Williams' Pink Pills and decided to try them. Soon I found they were helping me. I began to feel better. I regained good health. The pills also completely relieved my son of St. Vitus' Dance that I have every reason to praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

### An Unusual Court Decision

Rules Dust Beneath Floor Is Property Of Hungarian Tenant

The Supreme Court of Hungary decided recently that, although the floor of an apartment belongs to the landlord, the dust collected beneath it is the property of the tenant. The decision is worth \$2,500 to Frau Simon Schelmann, for the dust over which the case arose is gold dust which accumulated there during the fifteen years that her husband carried on the trade of goldsmith. On his death the widow decided on a floor mining enterprise which her landlord opposed, claiming the dust and floor both as his. Nine pounds of gold dust already have been recovered.

### Might Not Be

"One wife too many!" exclaimed Mrs. Hinty, as she glanced at the headlines of her husband's paper. If suppose that is an account of the doings of some bigamist? "Not necessarily, my dear," replied Mr. H., without daring to look up.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Killip's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearest druggist.

### What's In A Name

Some Arouse Unpleasant Memories As Chinese Very Well Know

Even the Chinese, unemotional as they seem, find that old names now and then arouse unpleasant memories. A thousand years ago Tartar invaders named a city Mankung. The Chinese recaptured it in the twelfth century and named it Yen-Shan-Fu. Along came the Tartars again a few years later and they rechristened it Chung-tu. Then came Kublai Khan, who made it Yenching. After being called Ta-tu and Cambaluc it was named Peking 500 years ago, and clung to this designation until recently. The last revolution gave it a new twist and it is now Peking, which means "northern peace."

Minard's Liniment—The King of Pains.

W. N. U. 1901

### Inventor Of Gramophone Dead

Emile Berliner Also Evolved Telephone Transmitter and Established Milk Standards

Emile Berliner, inventor of the gramophone, the first disc record talking machine, and the telephone transmitter, died recently at his home in Washington, D.C. Mr. Berliner was 79 years of age.

Following his arrival from Germany in 1870, he engaged in various vocations. He sold glass-painted backgrounds on enlarged photographs and travelled as a salesman for a Milwaukee wholesale house.

In 1877 he moved to Washington and began experimenting. While a clerk in a store he evolved the idea of the loose contact transmitter or microphone, which placed the telephone on an advanced commercial basis, some three years after Bell and Watson had invented the telephone in Boston. Later the microphone was to become also the soul of radio broadcasting.

In 1887 he achieved the second scientific discovery that placed his name in the forefront of inventors by giving the world the gramophone. This talking machine utilized the disc record, also his invention, and a horizontal wave groove, rather than the cylinder up and down groove. He invented and perfected, as well, the present method of duplicating disc records.

For his gramophone invention he was awarded the John Scott medal and Elliott Cresson gold medal by Franklin Institute, Philadelphia.

Mr. Berliner exhibited his adaptability in yet another sphere by interesting himself, in 1900, in the cause of the high death rate among babies, which he traced to the dangers of raw milk. He was instrumental in establishing milk standards, which were accepted in modified form by all the large cities of the country.

In his late years Berliner was associated with his son Henry in an advisory capacity for the development of the helicopter—an aircraft capable of rising straight up from the ground.

Minard's Liniment—Used for 50 years.

### A Modern Sander

Saxson Brown lays claim to being Britain's strongest man. He has let motor cars run over his chest and once, when a wheel slipped, it went over his throat. He suffered nothing more than a "sore throat." He can pull motor-coaches filled, with people and weighing over three tons, with his teeth.

A driverless motor-car controlled by radio has recently been exhibited.

## SHIP YOUR GRAIN

— TO —  
**McBean Bros.**

Crop conditions the world over appear to be unsatisfactory this year, so much so, that we consider highest prices warranted than those prevailing. It is our opinion, after careful study of the world conditions that our wheat should command a premium over other wheat with considerably higher prices later on. Assuming that import countries take \$10,000,000 bushels, which is a moderate estimate, as last year they took 127,000,000 bushels, and European crops this year are not so good, we have every indication of a shortage in supplies before another crop harvested. For this reason we look for wheat to sell at \$2.25 per bushel, barley at \$1.25, and oats at \$1.00.

By shipping your grain to us you can obtain a substantial advance, and can then hold for a favorable market.

Winipeg, August 15, 1920.

### League Has Varied Duties

No Matter Too Large Or Too Small For Attraction

It is astonishing to see what a number of activities are to be credited to the League of Nations. Recently, for instance, it dealt "not only with the all-important matter of disarmament. It considered how to "protect young female performers in music-halls and similar establishments." It also discussed the prevention of counterfeit coinage, and suggested measures for discouraging criminals from making and circulating false money. Nothing is too large for the League, nothing too small. Which is as it should be, and does great credit to the League staff and subsidiary committees.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

### Shows Big Increase

According to a statement issued by the Alberta Government, dairy production in the province increased over 13 per cent. during the first six months of this year, as compared with a similar period of last year.

## Hunters

Take Minard's along for any mishaps in the woods. Good for sprains, cuts, burns and bruises.

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually keep fresh in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

## Determining Period of the Year Most Important For Land To Receive Normal Precipitation

Opinion differs as to the period of the year in which it is most important for the land to receive normal precipitation in order that moisture reserves may be adequate for the growing crops. Recently a detailed study has been made of 15 representative districts over the prairies during the last 12 years, and certain conclusions arrived at on the basis of these 156 instances.

Out of 82 occasions, when Fall and Winter precipitation was normal or above normal, in 73 instances fall to heavy stands resulted irrespective of the moisture condition following after, which in 42 cases was below normal. Fall and winter deficiency was made up by above normal spring and summer rains in only 28 out of 74 occasions.

On the other hand, on the 47 occasions when below normal spring and summer rainfall was preceded by above normal fall and winter precipitation, the resulting crops were fair to heavy.

The evidence would seem to point to the fact that, while fall and winter moisture gives no guarantee of a good crop, still it is a most important factor and makes probable a good yield.

An examination of last fall and winter precipitation records reveal that there was need of a rainfall this spring, considerably above normal if crop prospects were to be regarded in any way as favorable. From September, 1928, to March, 1929, the average rain and snowfall was appreciably less than half normal, not a single weather-reporting district receiving its quota.

Coupled with inadequate subsoil moisture came an unusually dry spring and summer, when April was the only month which even approached normal, while the two critical months, June and July, were "two-thirds and a little over one-half of normal respectively."

So far as the present crop is concerned, it required an unusually large amount of spring and summer rainfall which did not come. The results of this lack are now evident.

### Farm Loan Payments Soon

Plans For Scheme In Alberta Are Practically Completed.

First payments under the Alberta Government Farm Loan Scheme will be made shortly. A large number of carefully selected applications are in the final stages, and loans that have been approved by the Edmonton Board, and the 60-Canadian Board at Ottawa, are in the hands of the officials who are preparing the mortgage papers. When all legal points are disposed of, the actual cash payments will be commenced.

### Why She Was Satisfied

It was necessary for taxation purposes to decide on which side of the Canadian and United States border a farm which an elderly lady had just purchased, actually lay. Surveyors finally announced that the farm was just on the American side of the border. The lady smiled with relief. "I'm so glad to know that," she said. "I've heard that winters in Canada are often terribly severe."

Japan's demands for phonograph records leans largely toward the work of great composers, whereas in China nine-tenths of the records are traditional Chinese tunes.

"Dad, do they charge tolls if the carriage is empty?"  
"I don't know. I have never ridden in an empty carriage."—Lustige Kölner Zeitung, Cologne.

W. N. U. 1801

### Could Learn From Canada

Australia Would Follow Example Of Dominion In Dealing With Industry

The Bulletin, Sydney, Australia, says:—  
Canada doesn't go in for compulsory trade-uniform or basic-wage commissions, or arbitration courts, or anything like that. It believes that the less Government meddles in industry the better for both employers and employees; and as warrant for its belief it can point to prosperous industries, recent wage increases in many trades, low unemployment returns, and comparative freedom from strikes. In 1927 the number of disputes was 79, the number of workmen involved 22,883, and the number of working days lost 165,288. Australia, with its expensive apparatus of industrial tribunals had 441 strikes, 260,787 involved employees, and 1,731,581 lost working days in that same year. In short Canada is beating us badly, and we ought to be too proud to let Canada beat us badly though not too proud to learn from its example.

Formerly superintendent of the Canadian National Railways at London, Ontario, who was appointed General Superintendent of the Saskatchewan District, with headquarters in Saskatoon, vice B. T. Chapell transferred.

CHARLES FORRESTER

Formerly superintendent of the Canadian National Railways at London, Ontario, who was appointed General Superintendent of the Saskatchewan District, with headquarters in Saskatoon, vice B. T. Chapell transferred.

### To Have New Industry

Western Foundries, Ltd., Building Factory At Lethbridge

The Western Foundries, Ltd., with a capital of \$500,000, has purchased four acres of land in the Canadian Pacific Railway industrial section at Lethbridge. Work has already commenced on the buildings. The company proposes to manufacture highway machinery, mining and oil drilling equipment, soil pipes, cast iron water pipes, and brass, aluminum and bronze castings. It is understood that supplies of pig iron will come from the Pacific coast, coke from Michel, and moulding sand from the Lethbridge district.

McGinty—I've a terrible corn on the bottom of my foot.  
Pal—That's a fine place to have it. Nobody can step on it but you.

### FLUTTERING LINES

Nothing gives better service or is generally more satisfactory for warm weather wear than tubbabe printed chiffon cotton voile. It's quite inexpensive too! You'll be surprised at small cost of Style No. 646. If you make it. It is in smart opacine tones so flattering to autumn skins. It comes in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 inches bust. The double tiers are circular shaped so as to give snug hips. Shirting appears at each shoulder of molded bodice with V-neck collarless neckline. Navy blue-georgette crepe, flowered chiffon, printed lawn in red and white, orchid sheer lines dotted in purple, Nile green rajah silk, chartruese green georgette crepe, voile in maize shade, printed silk crepe in bright blue tones and black and white printed crepe de chine are interesting suggestions. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap collar carefully.

## Canadian Poultry Pool Faces Unusual Situation This Year Owing To Over-Production

### Provincial Turkey Show

Saskatchewan Exhibitors To Have Large Section At Winter Show

The management of the Saskatoon exhibition has promised to provide facilities for a large turkey section at the time of the annual poultry show to be held there during the coming winter. This will constitute the provincial turkey show, explained Professor R. K. Baker, at a meeting of the executive of the Saskatchewan Turkey Breeders' Association recently.

With regard to turkey exhibits at the World's Poultry Congress, in London, England, next year, the executive expressed willingness to co-operate with the poultry committees in the preparation of Saskatchewan exhibits.

Saskatchewan turkey exhibits at the Toronto Royal this fall, it was announced, will have the advantage of the supervision of the well-known exhibitor, R. H. Stapleton, who will accompany his own birds to the show and who offered to look after the birds of other Saskatchewan exhibitors.

The executive drew up recommendations in regard to banding and inspection of turkeys for submission to the Department of Agriculture.

### Growing Turkish Tobacco

The latest experiment in Essex County, Ontario, the growing of Turkish cigarette tobacco, has been a success, early reports indicate. The Turkish plant is showing as good production in this county as in Macedonia, which has been the centre of Turkish leaf culture for centuries.

## Welcome Bisley Victor Home

Lieut.-Col. R. M. Blair, champion rifle shot of the Empire, welcomes home on board Canadian Pacific Steamship "Duchess of York," by Dr. A. M. Waylen, immigration health inspector. The trophies won by Colonel Blair are pictured below and are from left to right: The most coveted shooting trophy in the British Empire—the Gold Medal awarded to the King's Prize winner, the Grand Aggregate Gold Cross, also won by Col. Blair, and the National Rifle Gold Badge. He was also presented with a much-prized autograph photograph of His Majesty King George V.

The Central Company of the Canadian Poultry Pool, Limited, was faced with a situation unparalleled in the history of the Canadian egg industry in the early part of the present year, according to a review of the 1929 egg season, issued by the Saskatchewan Co-Operative Poultry Producers, Limited.

It appeared the season's production was considerably in advance of the consumptive requirements.

Toronto and Montreal had in the past provided a ready market for the greater percentage of the Western surplus, says the review, but this season's production was so increased in those provinces by local production, that an over-supply was soon apparent on the Montreal Market. In consequence the poultry producers had to look for other markets.

Great Britain, the only open market where the provincial producers competed with the world, had been ruling approximately six cents under that of last year, it was stated.

In putting up eggs for export only the best grades can be packed, the statement was. Eggs affected by heat cannot be exported. Under-grades, such as seconds, pullet extras and cracks, are not wanted in Great Britain.

During the last three months 40 per cent of the eggs marketed in Western Canada by merchants have been under-grades, says the review, and consequently, with all Canadian markets well supplied with high-grade eggs, a market had to be found for the large surplus of under-grades.

The situation was met during April, May and June, by breaking out into Melange, about 50 cars of under-grades, but once the requirements of frozen eggs were supplied under-grades had to go into immediate consumption. The result was over-supply, and it has not been possible to maintain prices.

The Pool has been consistently undersold by independent dealers who have been buying eggs from territory, getting them as low as 11 territory getting them as low as 11 cents per dozen.

The problem facing egg producers in Western Canada, is to eliminate under-grades, and proper feeding rations, it is stated, care in handling and elimination of male birds from flocks would materially assist in solving this problem.

In view of the market situation, the orderly marketing of Pool merchants' eggs has obtained for the egg producers at least five cents more per dozen. Had merchants marketed through independent dealers the markets would have been completely demoralized.

It was believed that the poultry pools of Western Canada, through their central company, the Canadian Poultry Pool, Limited, have accomplished, this season, beneficial results which would have been utterly impossible under any other system.

### Canada Will Exhibit

Canada's official participation in the six weeks' British Empire Trade Exhibition, to be held at Buenos Aires in the spring of 1931, has been announced by the Department of Trade and Commerce, Ottawa. The exhibition will be staged in the vast ramous Palermo Park where the Argentine Rural Society annually stages its stock shows.

Tommy: Did you have influenza as bad as I did? I had to stay away from school for three weeks.

John: I had it worse than that—I had it in the holidays.

"How did you find yourself after Olsen's party?"

"Oh, I just looked under the table and there I was."—Karlström, Oslo.

## SUNDAY SCHOOL LESSON

SEPTEMBER 8

## NEHEMIAH REBUILDING THE WALL OF JERUSALEM

Golden Text: "The people had a mind to work."—Nehemiah 4:6.  
Lesson: Nehemiah 2:1 to 7:4.  
Devotional Reading: Psalm 85:1-7.

## Explanations and Comments

Withstanding Ridicule, verses 1-6.  
"What are these feeble Jews up to?" mocking questions Sanballat before his brethren and the army of Samaria. "Do they think they can do it all in a day? Do they expect to bring the stones to life out of these heaps of rubbish?"

In every community there are crowds of people who have gone to the wall. They feel crushed and beaten. Now the Church's mission is to do for this ruined mass what Nehemiah did for the "rubbish-heaps of Jerusalem"—to build out of them the city of God. The rubbish-heap is God's raw material. A revival is His finished product. Let the Church get to work. She alone is equipped for so divine a duty. She knows how to transform this mass of rubbish into a field of roses.—F. W. Borchman.

Then Tobiah joined in the ridicule. That stone wall which they are building," he said, "will be broken down if a fox tries to scale it." Their words were repeated to Nehemiah, and he appealed to God to judge them. "Ridicule that comes out of the real humor of the situation may be hard to bear, but the man ridiculed often finds his labors lightened if he can himself see the humorous side. The ridicule of Sanballat and Tobiah, however, came from fear and a realization of the power of Nehemiah. Nehemiah kept steadily at his work in face of ridicule. The trouble with righteous indignation is that many times the man who is righteously indignant has to stop his work to vent his feeling. The resentment of Nehemiah against the enemies of the Lord only made him more determined to finish the wall."

"The people had a mind to work," Nehemiah said, giving them the credit for the work as he records the completion of half the height of the wall. It is thought that the most ancient walls had a height of two hundred feet."

"He who is severed from a cause he knows is right, through fear of ridicule, taunts, sneers or sarcasm of those around him, is not a man self-directed by right. He is only a weak prophet pulled by the strings of manipulation in the hands of others."—William George Jordan.

Despite all opposition from enemies, and all fears and weaknesses of workers, the wall was completed in the short space of fifty-two days. With great rejoicing a solemn dedication was held.

## RECIPE FOR SWEET DESSERT

For those who like a sweet dessert at the end of the meal, this recipe will have a particular appeal.

## Buttercotch Pie

- 1 cup brown sugar.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 2 egg yolks.
- 1/4 teaspoonful salt.
- 1 teaspoonful vanilla.
- 1 Cup Borden's St. Charles Milk.
- 1/2 cup water.
- 2 egg whites, beaten stiff.
- 4 tablespoons granulated sugar.
- Baked pastry shell.

Beat together the brown sugar, butter, flour, egg yolks and salt. Add the milk diluted with the water and cook in a double boiler until thick. Add the vanilla, cook slightly, and pour into the pastry shell. Cover with a meringue made with the egg whites and the granulated sugar. Brown lightly in a very low oven.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

Aspirin is a Trademark Registered in Canada.

## WORLD HAPPENINGS BRIEFLY TOLD

Flying officer W. W. P. Stewart, of the Royal Canadian Air Force, has been transferred from Jericho station to the Winnipeg service.

Fifteen persons were drowned when the Spanish steamer "Ogoni" and the British tug "King's Cross" collided in the North Sea 30 miles off the Humber.

Warren Packard, 35-year-old heir to the Packard millions, was killed when his private seaplane crashed into a marker in a marsh near Grosse Point, Mich.

Information of the system of education for Japanese girls was discussed by representatives of public and private girls schools throughout the Empire in a recent three day conference at Tokyo.

A regular Arctic mail service between Fort McMurray, Alberta, and Aklavik, Northwest Territories, via northern trading posts, will be inaugurated early in November, according to an announcement by Hon. Peter J. Veniot, postmaster-general.

**A Power Of Its Own.**—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and, for many years it has been prized as the leading liniment for man and beast.

**New Breed Of Sheep.** A new breed of sheep, specially adapted to find a living on poor land where some breeds would be unable to subsist, and at the same time yielding a good 10-pound fleece of high quality wool, was exhibited by Leeds University at the recent Royal Show, held at Harrogate, England.

## Her Little Boy Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lebel, Sask., writes:—"For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

"Discouraged and in despair I sent for a bottle, not expecting any more benefit than from the many other medicines I had used, but to my surprise I noticed a change after he had taken a few doses, and before the bottle was half used he was the same happy, healthy boy he was before he took sick."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

## A Youthful Steward

Fifteen-Year-Old Boy Is Serving On Great Zeppelin

The youngest member of the Great Zeppelin crew contemplates the world through serious eyes and believes he may grow up to be a good "airshipman," if he studies hard. His name is Ernst Fischbach, 15, and he shipped aboard the dirigible April 10 as a steward.

"I always wanted to be a steward," he said, "but now I may become an airshipman if I study." Ernst was aboard the Great Zeppelin last spring when damaged motors compelled Dr. Eckener to turn back. He is small, with an unusually serious face for a youngster.

Some of the earliest clocks had no dials. Only the hourly striking told the time.

## Old Settler Departed

Violated U.S. Immigration Laws

Unknowningly Several Years Ago John Donaldson Ross, Scottish dairy expert, who unwittingly violated the immigration law quota by moving into Willow Glen, Montana, from Canada several years ago, was deported back to Scotland, on the liner Adriatic, despite all the efforts of the Anconda Copper Co., his employers, to keep him here.

With him went his wife, born in Scotland, but reared in Canada, and his two small daughters, one born in Canada and the other in the United States.

They arrived at Ellis Island after a long trip across the country from Montana, aboard a special train filled with other deportees, many of them recruited from penitentiaries and asylums. Ross came from Scotland to Canada eight years ago. There he married, and one daughter was born to the couple before they crossed into Montana.

Somebody informed immigration authorities that Ross was living in the United States in violation of immigration laws, and he and his family were ordered deported. Ross was not even permitted to back to Canada.

## Historic Apartment

Has Been Preserved

Room in London Where Y.M.C.A. Was Founded 85 Years Ago

It is just a little more than 85 years ago since Sir George Williams, then a humble shop assistant, founded the Young Men's Christian Association. He held the first meeting in his bedroom, which is now above a big drapery shop in St. Paul's Churchyard. The room and his table are preserved intact, for when rebuilding was in progress, the structure was lifted bodily from a lower floor to its present position. Pilgrims from every part of the globe visit the historic apartment to pay homage to their founder. The association later engaged a room in a coffee house for half a crown a week.

Harthold's Statue of Liberty was presented to the United States at Paris, July 4, 1884.

Sea Scouts being taught some secrets of Navigation by Chief Officer Poole of the Cunard Liner "Antonia."

## WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. while a square yard of glass of ordinary thickness weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let

## VICTORY IS WON BY SNOWDEN AT HAGUE MEETING

The Hague.—The deadlock which has delayed result of the international reparations conference for three weeks ended with a victory for Rt. Hon. Philip Snowden, British chancellor of the exchequer.

After an eight-hour session, in which delegates of France, Belgium, Italy, Japan and Germany met with the British delegation, Snowden and his colleagues withdrew and evolved a project which was accepted by the other creditor powers a few hours later.

According to the British Communiqué announcing the accord, Snowden got 83½ per cent. of the 48,000,000 marks (about \$12,000,000) which he demanded as an increase in Britain's share of the reparations payments. This increase amounts to 40,000,000 marks.

The chancellor of the exchequer—who looked tired and frail and anything but victor after the conference—also got 80 per cent. of his demand for 120,000,000 marks share in unconditional annual payments. This share amounts to 96,000,000 marks (about \$24,000,000)—which is not an increase in payment but represents guaranteed payment on specified date.

In addition, the British won an important concession for their coal industry when Italy agreed to buy 1,000,000 tons of coal annually for three years from British mines. This concession met the third British demand—a means of relief from too long a period of German payments by deliveries in kind.

The accord marked the end of the hardest fight at any European conference since the world war. It left open, apparently, only the consent of Germany to re-arrangement of some payments and the German spokesman said that would be forthcoming.

French correspondents described the accord as "complete capitulation to Snowden."

## Moslem Revolt Serious

**British Marines Open Fire in Attempt To Quell Arab Attack**

Cairo.—Arabs attacked the suburb of Tulkeran and Jenin, northwest of Jerusalem, and advanced behind intermittent fire according to reports received here from Jerusalem. Ten Jews were wounded in rioting at Bel-sam and nearby points. Police repulsed them. Fighting continued in the western and southern parts of Jerusalem the advances said.

British marines were sent to Haifa, in an attempt to quell an Arab attack on the Jewish quarter of the city in which many were killed and wounded, among both Jews and Arabs, according to reports received here by the Jewish Telegraphic Agency. The marines fired on both the Jews and Arabs, it is stated.

Another report received in Cairo described Jerusalem as being in grave danger, with an army of 2,000 armed Arabs, including Druse tribesmen, marching on the city.

## Derby Fliers Killed

Boston, Mass.—"Red" Devereaux and his mechanic were killed, and Devereaux's wife was probably fatally injured when the Philadelphia-Cleveland Derby plane, believed to be piloted by Devereaux, crashed upon its arrival at the Boston airport. The plane was the second of the derby to reach here.

## Claims Record

Cincinnati.—Before pulling the ring to open his chute, Rex Barker, 23, during East Liverpool, O. flyer, leaped 9,600 feet here. He claims the world's record for delayed parachute jump, having stepped from the plane at a height of 11,600 feet.

**Atoms Added To Radio Notes**  
Schenectady, N.Y.—To join the vast array of radio performers, now comes atoms. Small matter, to be sure, but nevertheless audible, as was proven in a recent broadcast over station WGY here.

W. N. U. 1901

## Route Not Selected

**Air Mail Route To Coast Awaits Report From Technical Flying**  
Edmonton.—No selection of a through air mail route to the Pacific Coast has yet been made, declared G. Herring, of Ottawa, superintendent of air mail service for the Post Office Department when seen on his arrival from Calgary.

Reports will be obtained from technical flying men dealing with service safety and the route offered the greatest rapidity of operation before anything definite will be settled in connection with the through line," said Mr. Herring.

There has been an impression that the through line was to run by way of Calgary, or that the southern route would be given the initial try-on account of Canmore being selected as the terminus for the service that will open up by next month. Mr. Herring points out that Canmore was selected as it gave these operating the air mail service two hours leeway in making connections with the train for the coast. It was not to be taken as indicating the Department's choice of the final route to the coast, as that has not been considered as yet.

## Resources Will Be Discussed This Fall

**Settlement For Alberta and Saskatchewan Is Looked For**

Edmonton.—Natural resources and the conclusion of negotiations for the transfer to Alberta of its public domain will be up for discussion again some time this fall it is expected by Premier Brownlee.

Asked as to the present standing of the question, the Premier said that an official communication from the Ottawa Government in respect to a new offer has yet been received, but the provincial government has been given to understand in other ways that Ottawa's attitude in the matter will be to extend to Alberta and Saskatchewan the same plan of settlement as in the case of Manitoba.

## Urge Shorter Day For Canadian Miners

**Six Hours Asked In Resolution To Labor Congress**

St. John, N.B.—Six hour days for miners featured a resolution by Drumheller, Alberta, local union number 59, which was presented at the opening session of the Trades and Labor Congress, of Canada, here. The resolution stated that inasmuch as the miners were employed for only five months in the year, that an extensive search for wider markets for Alberta coal had failed miserably and that this had been used as a basis for reduction in miners' wages at Drumheller, they, therefore, urged a six-hour day and a five-day week for all miners in Canada.

## Seed Cleaning Plant

**Manitoba Is Promised Plant Similar To Saskatchewan**

Winnipeg.—Manitoba will shortly have a registered seed-cleaning plant, it was indicated by Hon. W. R. Motherwell, Federal Minister of Agriculture.

"As soon as the Manitoba seed growers are ready, we are prepared to give them a similar service to one we are providing in Saskatchewan," Mr. Motherwell stated.

## Saw Decapitates Child

Quebec.—When something went wrong with the mechanical saw Albert Blouin was operating, the wheel decapitated Yvette, his thirteen-year-old daughter, completely cut off one of Blouin's arms, and partly severed one of his eleven-year-old son's arms. The accident occurred at St. Sebastian, Beauce County.

## Regular Arctic Mail Service

Ottawa.—A regular Arctic mail service between Port McMurtry, Alberta and Aklayik, Northwest Territories via northern trading posts will be inaugurated early in November, according to an announcement by Hon. Peter J. Veniot, postmaster-general. Details of the new service have not been made public.

## TOURING CANADA

Randolph Churchill, 15-year-old son of Winston Churchill, who is with his father on a tour of Canada. The photographs was taken on his arrival in Toronto.

## Rumors Of Ontario Election In November

**But Premier Ferguson and Cabinet Members Turn Aside All Queries**

Toronto.—The political pot in Ontario has begun to simmer. Rumors of an election this fall are heard on every hand—but Premier Howard Ferguson and members of his Cabinet have, so far, deftly turned aside all queries with non-committal answers.

The present government was elected December 1, 1926, and in the normal course of events would have more than a year's tenure of office ahead of it. The government has not seen fit to state that an election will not be held before the expiration of the regular term—but neither will they say an election will be held.

High. W. E. N. Sinclair, Liberal leader, who has been touring various sections of the province, has been predicting an election this fall and has been urging preparation on the part of local Liberal organizations. One source has it that an election would be held some time during the first two weeks in November.

Premier Ferguson had no comment to make on this.

## Sailing Boat Burned

**Vessel Took Fire Near Churchill But Crew Escaped Safely**

Churchill, Man.—The schooner "Morse," owned by Dominion Explorers, Limited, Toronto, took fire 40 miles north of Churchill and in twenty minutes sank. It was learned here when the crew of 11 men arrived safely. The crew barely had time to scramble into life-boats before the "Morse" went down. Except for A. Gregory, sailor, and Fred Mason, cook, who are suffering from exposure, the crew survived the 24 hours spent in open boats without mishap.

## To Conquer Namesake Peak

Rt. Hon. L. C. M. S. Amery, former secretary for the Dominions in the Baldwin administration, forgets politics for mountain climbing, and in company with A. O. Wheeler, president of the Alpine Club of Canada, (left in picture), sets out from Lake Louise to climb Mount Amery.

## Given Entry Rights

**United States Oil Men Are Admitted Into Canada After Some Delay**

Ottawa.—A party of United States oil men including executives and geologists, which was held up at the international border at Sweetgrass, Montana, has been admitted into Canada. W. J. Egan, deputy minister of immigration, stated that the minister's discretionary power, under the new "contract labor" order-in-council, had been exercised.

Admission of the "immigrants," who were en route to Alberta, to investigate oil areas, was approved after receipt of a communication by the Department of Immigration. By the order-in-council which took effect August 7, entry into Canada of contract labor is forbidden, unless approved by the minister of immigration.

The order-in-council must be distinguished from the Alien Labor Act under which entry of complaint by some person or organization was a prerequisite to prosecution. Onus of preventing the admission of contract labor, under the order-in-council, now rests upon the Department of Immigration.

## Proves Northern Air

**Route Is Reliable**

**Monoplane Makes Non-Stop Flight Over Klondike Trail To Dawson**

Dawson, Y.T.—Completing a non-stop flight of 800 miles from Aklayik, at the mouth of the MacKenzie River delta in the Arctic, the western Canadian Airways' Fokker monoplane, equipped with pontoons, arrived here covering the distance in six hours and 45 minutes.

The machine, piloted by S. W. L. Britnell, had as passengers, O. S. Pinné, director of the northwest territories and Yukon, his secretary, G. D. Murphy, L. A. Groux, legal adviser and mechanic W. S. Trill.

The flight was instituted by the Dominion Government for purpose of testing the reliability of the air route and as part of its scheme to open up air communications with the remote sections of Canada.

The route followed was via McDougall Pass, made famous during the first Klondike gold rush, down the Porcupine and Yukon Rivers to Dawson.

## Sleeping sickness in Japan

Tokyo.—Widespread sleeping sickness with a high mortality rate was reported from the southwestern prefectures. There were known to be 202 cases with 73 deaths from the disease, which was believed to be the result of the severe summer. Okayama was the hardest hit with 118 cases and ten deaths.

## France Has Excellent Crops

Paris.—France shows a promise of prosperous days. Her wheat crop, estimated at nearly 40 million bushels in excess of her normal consumption, is one of the largest she has ever known. The yield from the vineyard is reported good as is that from the beet and potato crops.

## JOHN W. DAFOE CHOSEN BY U.S. FOR PEACE POST

Ottawa.—John W. Dafeo, of Winnipeg, editor of the Manitoba Free Press, has been chosen by the United States Government to serve as non-national commissioner on the part of the republic on the international commission appointed under the treaty for the advancement of peace between the United States and Germany.

The treaty, which sets forth that all disputes, after ordinary diplomatic proceedings have failed, shall be referred to the international commission for investigation and report, was signed at Washington on May 5, 1928.

The appointment of Mr. Dafeo marks the second occasion on which a Canadian has been signally honored by the United States Government through selection for service on a commission acting for that Republic.

Senator Raul Dandurand last year was chosen on a similar commission for the advancement of peace between Brazil and the United States.

Mr. Dafeo was approached by Hon. William Phillips, United States minister at Ottawa, through Dr. O. P. Skelton, Canadian under-secretary for external affairs. It was announced that Mr. Dafeo had informed Mr. Phillips he is deeply conscious of the honor which the President of the United States has conferred and recognizing the responsibility involved has much pleasure in accepting the designation in question.

The international Commission being set up by the United States and Germany, is to have five members, of whom Mr. Dafeo is the first named. Each government is to make a national commissioner as well as a Commissioner from a third country and then a fifth commissioner is to be named by common consent of the two governments from some third country.

## May Not Have Rights

**Prince May Not Benefit From Reported Oil Discovery On Ranch**

Ottawa.—If the reported discovery of oil on the Prince of Wales' Alberta ranch "E.P." is substantiated he may or may not benefit from the "find" depending upon the action he has taken. In a recent interview his royal highness referred to the discovery of oil in the neighborhood suggested he could not profit since the petroleum and natural gas rights and the mineral rights of the property were vested in the crown.

The mines branch of the Department of the Interior says, however, if such is the case the Prince may, by application to the Dominion lands agent in the district, secure a lease on the petroleum and natural rights on the title.

The title of the "E.P." ranch is an old one, and it is also possible that when he purchased the title he may also have acquired the mineral and petroleum rights. In that event he may benefit from the discovery of oil simply by continuing to pay the yearly rental charge.

## Western Creameries Win

**Honor Of Exhibiting Highest Grades Of Butter At Canadian National Exhibition Goes To Manitoba**

Toronto.—Western Canada, represented by creameries in Manitoba, won the honor of exhibiting the highest grades of butter at the Canadian National Exhibition. Judging of butter and cheese, principal items in an industry yielding in excess of \$100,000,000 annually in Ontario alone, concluded recently.

George H. Barr, dairy commissioner for Ontario, said he had no excuse to offer for the failure of Ontario entries to outpoint those from the west. He was prepared to take off his hat to the westerners for the quality of their work.

The silver cup for the highest scoring creamery butter was awarded to J. G. Gallagher, Winnipeg.

The estimated population of China in 1923 was 330,000,000.

## Here and There

Statistics gathered by the New  
Brunswick Government Bureau of  
Information and Tourist Travel show  
an increase of 25 per cent. in the  
number of motor tourists from the  
United States entering Canada at  
border points of the province start-  
ing their vacation in Canada.

His Excellency the Governor-  
General of Canada, arrived in Can-  
ada recently at St. Ignace Island,  
Canadian Pacific angling resort in  
the Georgian Bay, when Judge B.  
Williams of Jackson, Mich., and a  
bible simultaneously with his wife,  
both fishing from the same boat.  
The guide couldn't handle the canoe  
so that both anglers would have a  
chance to land a fish, so the judge  
put pressure on his catch when it  
broke away Mrs. Williams, after a  
half-hour fight landed a fine fish.

Lord Luke of Pavenham, chair-  
man of Bovril Ltd., arrived in Can-  
ada recently on the Empress of  
Australia en route to Australia.  
His Lordship is operating a settle-  
ment scheme in the Argentine  
whereby farmers rent lands from a  
company, paying 15 per cent. on  
the company's marketing of their  
crops. He is contemplating a  
similar company in Australia in  
connection with sheep raising. He  
will also examine possibilities in  
the Prairies for a similar settle-  
ment organization.

Heavy entries are reported for  
all classes of athletics, piping and  
dancing events to be decided at the  
Highland Games and Scottish  
Music Festival to be held at Banff,  
August 30-September 2, as also for  
the Dominion Trade Association  
Championships to be held there  
Labor Day. A practically new  
track has been built at Banff to  
accommodate the sports scheduled.

Disolution of the present Japane-  
se Government and the advent of  
a new one within a year is predi-  
cated by Viscount E. Murohachi, Ja-  
panese Minister to Scandinavia, who  
arrived at Vancouver recently  
aboard Canadian Pacific steamer  
Empress of France on his way to  
resume diplomatic duties at Stock-  
holm. The present Japanese Pre-  
mier is in minority control of the  
Diet.

William Baird, steamship pas-  
senger traffic manager of the Cana-  
dian Pacific Railway who specu-  
lated the Bremen in New York re-  
cently, said that in view of the  
shorter distance between Cher-  
bourg and Quebec as compared  
with Cherbourg and New York the  
48,000-ton new Canadian Pacific  
liner Empress of Britain to be  
placed in Atlantic service next  
spring, might make a strong bid for  
the blue flag of the Atlantic. This  
steamship will be an off-bow 730  
feet long, 97-foot beam and will  
carry more than 1100 passengers  
in first, second and third class.

Paul Seidl, all-American half-  
back and star of the University of  
Pennsylvania, has added to his  
sue by earning in company with  
Jay Gules and Ed Hopkins the  
coveted gold button of the famous  
order of Trail Riders of the Cana-  
dian Rockies. With a cook and  
guide, the trio made an expedition  
from Banff to the Columbia Ice  
field, said to be the largest body  
of ice south of the Arctic Circle.

## The Singing Fool

By HUBERT DAILEY

Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, the singing waiter and song writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Molly, the ballad singer at Blackie's, who had treated Al disdainfully, makes up to him when she finds he is on the way to fame. They are married and Al, and more solicitous of his welfare. And, somehow, she and Al did not see John Perry so much. Perry seemed to be called out of the city a great deal of the time on business.

Al went about the city in a daze of happiness. Al home was his lovely Molly, quiet-eyed, soft-spoken, patiently waiting. Undoubtedly the mystery of the approaching event had changed her for the better and, as Al predicted, she too wanted the baby.

Then the night came when she was rushed off to the hospital, and Al paced the white corridors, sat down in the reception room, tried to read the dog-eared magazines he saw lying about, smoked countless cigarettes and—waited for the good word.

Occasionally a white-robed nurse passed, giving him a sympathetic glance. Then the moment came when one of these nurses beckoned to him. He sprang forward.

"You may come now, Mr. Stone. The baby's born."

"How is it, what is it?"

"It's splendid—it's a boy."

"And how's Molly?"

"She's splendid, too."

Al tiptoed softly into the white room, behind the nurse. There was Molly, bolstered up slightly by pillows, paler than he had ever seen her before. She gave him a warm smile. And lying beside her was a small bundle, which suddenly gave off a high, piercing yell. Al stepped over, ever so cautiously, until he stood beside the bundle. Then he looked down into the wrinkled, red little face.

"Isn't he beautiful? He's a boy!"

While the nurse quickly slipped her hand over her mouth to hide a broad smile, Al leaned over Molly and kissed her gently. He felt one of her arms go weakly about his neck.

"Are you happy?" she whispered.

"Oh, so happy! You're about the only woman I love."

"Yes? You're happy too?" murmured Molly, and suddenly she began to cry. Al was astonished, but he patted her lovely golden hair, and repeated, "There, there," and dried her eyes for her.

In after years Al looked back on that night as the time when he and Molly were closest together; when she seemed to create a rare and delicate intimacy between them. But as the days passed she grew fretful and impatient to be back at her work.

She questioned Al constantly as to whether he was sure, Marcus would welcome her back in the show, and as to whether the crowds would remember her as their favorite ballad singer. Each time the subject came Al ardently reiterated that she had nothing to fear. Why, wasn't she the best little heart-throb singer in the whole world? Surest thing she was!

Molly was enraptured with the baby at first, but as the time approached for her reappearance on the stage her interest in Junior seemed to diminish. Her old feeling of cold, calculating ambition returned to her.

Then came the night when she was to face the footlights again. Al, standing in the wings, saw her bright lights, raise her hands and clasp them across her heart in a characteristic way, and smile her usual friendly little stage smile.

When she broke into song Al was singing with her from the wings, and the faintest hint of his encouraging murmur reached her.

Then his thoughts turned to Junior at home, Junior sleeping calmly in his crib, with one podgy fist thrust against his mouth. Suppose, though, Al Junior were to cry and the nurse didn't know what to do for him. It was all-Al could do, to keep from dashing from the theatre and driving home post haste.

But no, if he did that Molly would say he thought more of the baby than he did of her. She was saying that too frequently already. Al adored his child as he had never loved another human being, not even Molly. He would sit with the baby in his arms, crooning to it, singing to it, talking to it, by the hour.

Molly noticed his constant devotion to Junior, and, while she had liked it and felt flattered by it at first, she grew more critical as time went on.

"Al, you don't pay any attention to me since the baby came."

"Oh, I do so."

"No, you don't."

"But Molly, he's our baby. Any attention he gets is for you, too. Don't you see?"

Molly didn't see. She shook her head vigorously.

But Junior grew more roly-poly and healthy without, being the least bit aware that he was causing a slight feeling of dissension between his parents. He had Al's happy-go-lucky, fun-loving nature and his greatest joy, as time went on, was to have his father sing to him. So two years passed and Junior was able to strut about the apartment, although a bit unsteadily at times, and to go for the shortest of walks in the park.

Meanwhile, the fame and fortune of Junior's father and mother grew to far greater proportions than had been assumed before his arrival. Al Stone had become Broadway's premier song writer, and as his fame increased he insisted that Molly win- ton keep pace with it. She sang all

his songs and he insisted that her photograph appear on every one of the music sheet covers and that her name appear in type twice as large as his own name.

Yet a closer observer would have seen that a domineering, happy, she had fame, money, a happy home, an adoring husband, and a beautiful child, yet something seemed to be missing. Frequently she was moody at home and shrewish at Al. But Al loved her so and was so happy with Junior that he passed over these temperamental outbursts.

John Perry had called more frequently after Molly's recovery and return to the stage. He often dropped in at the sumptuously furnished Stone apartment and every so often he took Molly to dinner when Al was busy with a song that had to be finished in a hurry.

At Blackie Joe's place, just off the Village, Grace Farrell heard news of Al and Molly as it percolated down from Broadway. When she learned of Al's baby there was a little sharp pain in her heart for a moment, then she smiled radiantly and dashed out to send him a congratulatory telegram. So Al and Molly had a baby! Grace wondered what it was like and longed to see it.

One day Grace was walking on the Avenue, window-shopping, and dreaming, when she saw Molly's face at the window of a blue Rolls-Royce. Just then the Avenue lights went red and the car drew up at the corner to wait for the cross-town traffic.

Now Grace saw a man sitting beside Molly—a stranger. Grace stopped, fascinated by the sight of the richly dressed Molly, superb in delicately applied make-up, and a chic little Paris hat. Without thinking, Grace looked down at her own clothes. They were not shabby, but they looked poor beside Molly's gorgeous raiment.

Then a strange thing happened. As the driver of the Rolls-Royce prepared to start his car with the change of lights, Grace distinctly saw the dark handsome man beside Molly slip his arm casually and possessively about her. Molly turned to him with a smile, her car darted away, while Grace stood rooted to the spot in amazement.

(To Be Continued.)

### Ancient Tree Destroyed

Five-Hundred-Year-Old Elm in England Free To Fire

An elm tree 600 years old, at Hadley Wood, Barnet, under which Bishop Latimer preached in 1535, has been destroyed by fire. The blaze started among dead leaves in a cavity in the trunk. The tree, which was of enormous size, was said to have been one of the largest elms in the country. Henry VIII, when on his way from Hatfield House to London, heard Bishop Latimer preaching under it.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Eucalypti Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pain in the chest, colds and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

A Notable Record

In 1892, Arthur Hawkes tells in an article in the Winnipeg Free Press, Brandon had seven lawyers. Four, Clifford Sifton, Arthur Sifton, Thomas Mayne Daly, and George R. Colwell became Cabinet Ministers, and two, W. A. Macdonald, and A. Henderson, judges in British Columbia. That record can hardly be beaten in Canada.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

Sir William Morris, Great Britain's leading automobile manufacturer, told the press that every foreign car imported to the British Isles means the loss of a year's work for one Englishman.

### Britain's Atlantic Fleet

Finest Naval Unit In Existence and Largest in World

The Atlantic fleet becomes the greatest single fighting force in the world by the decision of the admiralty to recall five battleships of the Queen Elizabeth class from Mediterranean waters to home ports and the Atlantic fleet.

The transference of the battleships, not only an important change in distribution of the navy, but an entirely new departure in British naval policy, means the balance of power is removed from Malta and Gibraltar to the Atlantic.

The Atlantic fleet will consist of 15 capital ships, among them the two most powerful vessels in the world, the Rodney and Nelson, and the largest battle cruiser in the world, H.M.S. Hood.

The Queen Elizabeth vessels are approximately 30,000 tons, armed with eight 15-inch guns. These five will join the two Nelson class vessels, the Hood, the four Iron Duke battleships, and the battle cruisers Renown and Repulse, to make the most formidable fleet assembled on peace time duty in the world.

Officially the lack of adequate harbor accommodation is the reason for removal of the battleships. But there is more behind the decision than a mere question of detail. One suggestion is that the Admiralty is influenced by the fact that these big ships will now give the British dockyards a great deal of maintenance work to compensate for the loss of reduction of the replacement program.

The British fleet in the Mediterranean will be cut to five capital ships and four of the newest "Washington" 10,000-ton cruisers.

### Little Helps For This Week

"And the Lord shall help them, and deliver them, because they trust in Him."—Psalm xxxviii. 40.

Be bounteous in thy faith, for not is confidence unto the Father lent; Thy need is soon and rooted for His aid.

His thoughts are as thine own; nor are His ways Other than thine, but by their loftier sense

Of beauty infinite and love intense. Wonder on, O day, beyond all thought of praise, A sunny joy will crown thee with its rays;

Now other than thy need and recompense.—George Macdonald.

Have faith in God, think noble things of God; be sure that trust in the righteous God means the ultimate triumph of good over evil.

—Frederic W. Farrar.

Stop Colds with Minard's Liniment.

Owns Property in New York

Valuable Real Estate Is Held by King George

Among the owners of valuable real estate in New York is King George V. of England, it is revealed by the Associated Press. Several Fifth Avenue sites and plots of land elsewhere in Manhattan Island are held by the British crown.

Among them is reputed to be the site on the avenue of the shoe store which has "the largest round window in the world"—a cylindrical sheet of glass completely encircling a showcase floor which is lowered like an elevator to the basement to be trimmed and then lifted again, hydraulically into place.

All the properties of the British monarch are in the custody of a holding and management corporation downtown. It frequently adds to or disposes of this or that other realty under its care, but never makes public the owner's name, and thus keeps secret the exact locations here of the holdings of its royal client.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Can Be Relied On

The same engines and boilers which British engineers installed in the "Mauretania" in 1907, drove the ship across the Atlantic on her record trip recently. The British workman is always reliable and thorough.

Kill that corn with Minard's Liniment.

### Chew and Grow Thin

You know that certain foods furnish body energy without adding uncomfortable fat.

Sugar is one of these foods, supplying needed energy in concentrated form.

WRIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasanter way of taking sugar?

### Big Job Ahead

One Man Starts Work On Millions Of Books In British Museum

One lone man is working on the job of renovating the 50,000,000 books in the British Museum, in London. For the past fourteen years he has been rehabilitating the dusty volumes in this world famous museum, and he is only 15,700,000 more to fix. If his present rate of progress continues, he will complete the task in just 1,329 more years—unless somebody publishes another book in the meantime.

### SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the liver of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They may be used by medicine dealers or by mail at \$2.00 a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Creditable Record

A Sussex lady who recently celebrated her hundredth birthday received a medal from the British Red Cross Society for her War services which included sewing over 400 shirts for the men at the Front.

### From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMullen, Vancouver, Canada.

UNSWEETENED

## Stony Plain and District.

IT PAYS TO PAY CASH.

Mr and Mrs Franklin K Clarke, of Jasper, are visiting with Mr and Mrs J F Clarke.

Mr and Mrs D W Pattie, Rocky Mountain House, are visiting with friends here this week. Mr Pattie is in charge of the A. P. Police detachment at Rocky Mountain House.

While engaged in measuring some lumber, on the pile, on Friday last, Mr John Armbruster made a mis-step and fell a short distance, injuring his side.

Mr Peter Odenbach, well known here, arrived on Friday's Confederation train from the west. Peter has been summering at Vernon, B. C., and brought a carload of assorted fruits and vegetables.

Mr and Mrs F G Mosses were present on Saturday last at the silver wedding celebration at Kapasiwin of Mr and Mrs Geo Laight.

St. Matthew schools No. 1 and 2 opened Tuesday morning with a good attendance at each. Concordia classes resumed yesterday. Among the new entrants from here are young Louie Wudel, Martin Ulmer and Martin Ursel.

Edmonton Normal School opened on Tuesday last. Among the pupils from the local Consolidated school are: Miss Annie Albrecht and Mr Val. Pailer.

Members of the local Women's Institute are meeting today at the home of Mrs J Lory.

Quite a few of the local threshers commenced operations this week, a little earlier than usual. It is expected some farmers may object to paying last season's prices for threshing, but it is probable that the old prices will prevail hereabouts. Threshers' help is said to be cheaper this fall.

**BIRTH**—In Glory Hills district, on Monday, Sept. 2, to the wife of Mr Peter G Miller a son.

Farmers having chickens to sell should bring these to P Henkel, phone 58.

Inga Councillors meet next on Friday, Oct. 4, in Stony Plain.

## Heard on Main Street.

Pete—Will you join me in a glass of beer?

Bill—I'd like to—but do you think both of us can get into a glass?

## Our Weekly Poem

When Adam, in bliss,  
Asked Eve for a kiss,  
She puckered her lips, with a coo:  
With a look quite cooistic,  
She answered emphatic:  
"I don't care, Adam, if I do!"

## Peck's CAPS

—are made for those men and young men who appreciate the little touch of refinement in head dress.

The most comfortable and most serviceable caps made for golf, motoring and all outing occasions, as well as street wear.

**T. J. HARDWICK,**  
Stony Plain.

## Sporting Notes.

Fort Saskatchewan's ball team played a double-header with Stony's team on local grounds on Sunday, the home team winning the first game by the score of 7 runs to 4.

The second game was also won by the home team; score—14 runs to 9.

## Keep Your Eye on These.

Enders & Baron got in another consignment of Fords on Friday. In the shipment was several of those fifty four - passenger convertible coupes of the new design.

These are, indeed, the all-weather means of transportation—you can have 'em open to the blue sky in the warm weather, when winter comes, close 'em up as tight as a bug in a rug. The new cars had a crowd of admirers around 'em and were sold as soon as unloaded.

## Church Services

Pastor Osterman delivered a very interesting discourse at the Lutheran service in English in Stony Plain last Sunday evening, taking his text from the Book of Genesis, chap. 32 v. 10, Jacob's words of, "thankingsgiving unto the Lord": "I am not worthy of the least of all the mercies, and of all, the truth, which Thou hast shewed unto Thy servant." There was a good-sized congregation present, which joined heartily in the singing of the hymns.

A Lutheran service in English will be held in Stony Plain Sunday, Sept. 15, 7.30 p.m., by Rev. Osterman.

Rev P Hanselman, the well known and popular pastor of the Lutheran church (Manitoba Synod) at Golden Bells, has received, and accepted, a call from the congregation at Bashaw. He will hold his last service at the Spike Sunday, Sept. 15.

Service at United church Sunday evening at 7.30; Rev G A Sauder.

Services will be held in St. Philip's Church at 11 a.m. on Sunday, Sept. 22.

## Open Seasons for Game

Following are open seasons for game—

Ducks and Geese—Sept 15 to Dec 14th.

Hungarian Partridge—Oct 1 to Nov. 30.

Prairie Chicken and Partridge—No open season.

Deer—Nov 1 to Dec 14.

Otter, Nov. 1 to May 1.

Beaver, No Open Season.

Muskat—Between North Saskatchewan and Tp. 91. March 15 to April 15.

Game Licenses can be had at Sun Office, where copies of the Game Act can be seen.

## Climbs Mountain Named After Him

Rt. Hon. L. C. M. S. Amery, secretary for the Dominions in the late Baldwin Administration, who arrived in Canada recently on the Empress of Australia, had as his objective in this country the climbing of the 11,000-foot Mount Amery named after him, in the Canadian Rockies. There is no official record of this mountain ever having been climbed before this attempt which was undertaken with the famous Swiss guide Edward Faus. Colonel Amery at once took the 2600-mile trip across Canada to Lake Louise whence in company of Faus and A. O. Wheeler, honorary president of the Alpine Club of Canada, he set out for the peak located near the Great Columbia Icefields near the junction of the Alexandra and Saskatchewan Rivers. Lay-Out shows (1) the vast rampart of Mount Amery with the great icefield below (2) Edward Faus, Swiss guide, all set for the ascent and (3) A. O. Wheeler (left) and Rt. Hon. L. C. M. S. Amery, chatting outside the Banff Springs Hotel just prior to setting out north with a pack train to locate and climb the peak.

## Spruce Grove News

The good football game on Sunday between the C. N. R. and a local picked team did not attract as large a crowd as the playing deserved. The final score showed the Grov-ers to be 2 goals behind the Railroaders.

Mr J. Kelly, Edmonton, was a weekend visitor with Mr W. J. Conolly.

Some of the enterprising threshermen are already out on the trail with their machines.

Mrs H. L. Morrow has returned from a short vacation, spent at her cottage at Edmonton Beach.

Miss Pinchbeck has re-engaged as teacher at the school at Jasper. Miss Mildred Pinchbeck, who taught at the Grove school last session, is now teaching at St John's School.

Taking the sharp turns onto the side roads along the Baseline is proving to be a job only an expert can do. The other evening a big blue touring No. 84845 apparently tried to turn north from the Highway at the Wettlaufer corner, but instead came to grief in the ditch, wrecking the mail box post and left front wheel on the car.

The gang of 150 railroad navvies who had been working here for a week, have moved further east.

The first new wheat to come to the local elevators was brought in Thursday to the Gillespie elevator, from Mr T. Wudel's farm; the first new barley came in on Friday from the P. Zaff farm.

The disappearance from his home of Mr Rennie Sr., reported to the Police in Edmonton several weeks ago, still remains a mystery, although diligent search has been made several times.

One of the first Winterburn farmers to thresh was Frank Wild, whose wheel averaged 20 bu. to the acre.

The Public Utilities Commissioners have permitted the Michael S. D. trustees to borrow \$2900 on the security of the S. D.

## Cattle Wanted!

Meredith Bros. are leading cattle every week. See them about yours.

## EXPECTING THE BEST

Farmers dealing with United Grain Growers expect the best in service and treatment.

They have a right to expect it, for this is a farmers' company and it has the experience, the resources, the organization and equipment to give such service and treatment.
